The LTS-10 and LTS-15, Laptop Lockers, from American locker now bring security to laptops. Each locker module contains 10 or 15 compartments. The LTS-10 and LTS-15 provide a safe alternative for protecting your companies equipment.

The LTS-10 and LTS-15 are electrically equipped. Each compartment contains an electric receptacle. They not only protect the laptop they also have the capacity to recharge the battery after a long day. It's simple and convenient. It insures that every morning your employee will be ready to start their business day with no hassles.

Locks:

- Key operated locker with one key per opening
- Shipped with 2 sets of Control Keys
- Able to access all openings via front master load door

Electrical Components:

- **6' Wire with a 3 prong cord to run from back opening with strain relief**
- **14 Gauge Wiring**
- **15 Amp Circuit breaker located at bottom opening**
- **LED Power Light Indicator**

Cabinets:

- **All front doors to be double pan construction with self-closing Stainless steel door pivot control**
- **Electroplated zinc steel with an epoxy primer and baked on enamel finish**
- **Each compartment contains 16 ventilated holes**
- **Full factory assembly utilizing rugged construction employing a welded module body mated to a front door/frame assembly**
